Thanks for scoping this [Nonresponsive based on revised scope] Considering our budget, I don't really want to work for 1 1/2 weeks and then have a demobe, so I think we will wait.

I assume you heard Weston did not get the contract, so that will be a significant change as well

Thank you for thinking ahead
Please stay safe
Chris

Chris,
Following up with on our conversation to excavate the driveway on property 1.
The area is 108' E/W x 85' N/S x 0.5 excavation = 4590 cf/27 = 170 cyd
170 cyd x 1.3 density = 220 tons.
Approximately 10 truckloads

Propose ERRS mobe on 6/22 to start work through 7/1 or 7/2.
Please use \$35k/week for ERRS burn rate with a crew of 9.
Disposal would cost \$41,360 for 220 tons (\$188.00/ton). We could set up disposal during this time and/or complete it after the 4th?

I did not estimate anything for backfill or post ex sampling.

Let me know your thoughts.
Thanks
